

# THE PHILIPPINES

## NATIONAL ADAPTATION PLAN (NAP) APPROACH:

Led by the National Climate Change Action Plan (2011 – 2022), a nationally driven plan that outlines a long-term program and strategies for adaptation and mitigation

In 2010, the Government of the Philippines released its **National Framework Strategy on Climate Change (NFSCC)**, which envisions a “climate risk-resilient Philippines with healthy, safe, prosperous and self-reliant communities, and thriving and productive ecosystems.” The framework stresses a balance between adaptation and mitigation, and laid the groundwork for the development of the **National Climate Change Action Plan (NCCAP) for 2011– 2028**.

The Philippines envisions the Philippine **National Adaptation Plan** as derivative plan from the NCCAP, a nationally driven plan that outlines a long-term programs and strategies for adaptation and mitigation focusing on the seven thematic priorities. The phases of implementation under NCCAP is aligned with the National Disaster Risk Reduction and Management Plan and the Philippine Development Plan (PDP), the country's development framework that seeks to address poverty, create employment opportunities and achieve inclusive growth.

The **Climate Change Commission (CCC)** currently spearheads the monitoring and updating of the NCCAP and adopts a whole of nation approach through coordination and involvement of stakeholders from relevant national agencies and ministries, local government units, academia, business and civil society. In the process of updating the NCCAP, the CCC takes into consideration the NAP technical guidelines.

### KEY OBSERVED & ANTICIPATED CLIMATE CHANGE IMPACTS

Sea level rise

Drought

Diseases

Tropical storms

Landslides

Declining coral reef health

Rainfall variability

Increasing temperatures

### PRIORITY SECTORS FOR ADAPTATION

Food security

Knowledge and capacity development

Human Security

Sustainable Energy

Water sufficiency

Climate-smart industries and services

Ecosystem and environmental stability

February 2018

The NAP Global Network is a group of individuals and institutions working to enhance national adaptation planning and action in developing countries. This poster is part of a series highlighting lessons emerging about the NAP process.
